

ALLGREEN COFFEE MACHINE & KETTLE CLEANER

Powder Descaler with Natural Acids • Vegan Formula
SLES/SLS-Free • Phosphate-Free • Paraben-Free • Chlorine-Free • Dye-Free
• Fragrance-Free

PRODUCT DESCRIPTION

ALLGREEN Coffee Machine & Kettle Cleaner is a powder descaler containing natural acids, developed to help remove limescale and mineral deposits from compatible coffee machines and kettles. Its acid-based cleaning action targets deposits associated with water hardness. Regular descaling, performed according to the appliance manufacturer's instructions, supports routine equipment maintenance. The vegan formula contains no animal-derived ingredients, SLES, SLS, phosphates, parabens, chlorine, added dyes or fragrances.

PRODUCT FEATURES

- **Contains Natural Acids:** Helps dissolve limescale and mineral deposits.
- **Powder Format:** Prepared with water according to the product label.
- **Vegan Formula:** Contains no animal-derived ingredients.
- **SLES-Free:** Contains no Sodium Laureth Sulfate.
- **SLS-Free:** Contains no Sodium Lauryl Sulfate.
- **Phosphate-Free and Paraben-Free. Chlorine-Free.**
- **Dye-Free and Fragrance-Free:** Contains no added dyes, colourants or perfume.

The absence of added fragrance does not exclude a characteristic raw-material odour.

APPLICATIONS: For descaling compatible appliances where the manufacturer permits acid-based descaling products: • Electric kettles. • Filter coffee machines. • Espresso machines. • Automatic coffee machines. • Removable components specifically approved for descaling. Use is subject to the appliance manufacturer's material compatibility and maintenance instructions.

DIRECTIONS FOR USE: Check the appliance manufacturer's descaling instructions before use. Follow the dosage, water temperature and dilution instructions on the product label. Prepare the solution by dissolving the powder in water as directed. Do not add dry powder directly to internal appliance circuits unless expressly permitted.

For Kettles: Introduce the prepared solution according to the appliance instructions. Do not exceed the maximum fill level. Heat or boil the solution only if expressly instructed by both the product label and the appliance manufacturer. After treatment, discard the solution and rinse thoroughly. Complete any fresh-water boiling and discard steps required by the appliance manufacturer before reuse.

The above details have been compiled to the best of our knowledge on the basis of tests and research work and with regard to the current state of our practical experience. This technical product information is non-binding. No liabilities or guarantees deriving from or in connection with this leaflet can be imputed to us. Statements relating to possible uses of the product do not constitute a guarantee that such uses are appropriate in a particular user's case or that such uses do not infringe the patents or proprietary rights of any third party. The reproduction of any or all of the information contained in this leaflet is expressly forbidden without Star Kimya's prior written consent.

ALLGREEN COFFEE MACHINE & KETTLE CLEANER

For Coffee Machines: Add the prepared solution to the designated water tank only where instructed. Run the manufacturer's descaling programme or prescribed procedure without coffee. Remove water filters or cartridges only as directed by the appliance manufacturer. After descaling, complete the required fresh-water rinse cycles before preparing beverages.

Do not add the product to bean hoppers, coffee powder compartments or milk systems unless specifically approved for that application.

MATERIAL COMPATIBILITY

Compatibility with all appliance models and materials is not claimed. Confirm suitability before use on aluminium, copper, brass, sensitive alloys, plated components or special coatings. Avoid contact with marble, natural stone and other acid-sensitive surrounding surfaces. Wipe up accidental spills promptly and rinse the affected area where appropriate. The presence of natural acids does not mean that the product is non-corrosive or suitable for every material.

CLEANING SCOPE: The product is intended primarily for limescale and mineral deposit removal. It is not presented as a substitute for dedicated coffee oil removers, milk-system cleaners or disinfectants. Do not use for espresso-machine backflushing unless specifically approved by the machine manufacturer and product instructions.

ENVIRONMENTAL APPROACH: The product combines a vegan formulation with natural acids and excludes phosphates, chlorine, dyes and added fragrances. It is developed with an environmentally conscious formulation approach. These characteristics do not, on their own, establish complete biodegradability, environmental certification or a quantified reduction in environmental impact.

STORAGE AND HANDLING: Store in the original, tightly closed container in a cool, dry place away from direct sunlight. Protect from moisture and excessive heat. Use a clean, dry measuring utensil. Do not return unused prepared solution to the container.

SAFETY INFORMATION: Keep out of reach of children. Avoid contact with eyes and inhalation of powder dust. Do not ingest. Do not mix with bleach, chlorine-containing products or other cleaning chemicals. Mixing acidic products with bleach can release hazardous gas. Do not consume the descaling solution. Thoroughly rinse the appliance before preparing food or beverages. Refer to the product label and Safety Data Sheet for detailed safety precautions and first-aid information.

ADDITIONAL INFORMATION: This Technical Data Sheet does not replace the Safety Data Sheet or the appliance manufacturer's maintenance instructions.
