

ALLGREEN CONCENTRATED REFILL CLEANING POWDER SET

Add-Water Cleaning Products

Degreaser • Bathroom & WC Cleaner • Multi-Surface Cleaner

PRODUCT DESCRIPTION

The ALLGREEN Concentrated Refill Cleaning Powder Set combines three cleaning products prepared by mixing powder with water before use. The set includes a powder degreaser, a powder bathroom and WC cleaner, a powder multi-surface cleaner and one reusable refill bottle. Each 30 g sachet is added to 500 ml of water to prepare a ready-to-use cleaning solution. Sachets are pre-portioned for individual preparation. The concentrated powder format allows the water normally transported in ready-to-use liquid products to be added at the point of use. This approach helps reduce transported product weight and storage requirements. Reusing the refill bottle reduces the need for a new bottle with each preparation.

SET CONTENTS

- 3 degreaser powder sachets — 30 g each
- 3 bathroom and WC cleaner powder sachets — 30 g each
- 3 multi-surface cleaner powder sachets — 30 g each
- 1 reusable refill bottle

The set contains 9 sachets, allowing 9 separate cleaning solutions to be prepared. Box configuration, product assortment and sachet quantities can be customised according to customer requirements.

PRODUCT FEATURES

- Concentrated powder format activated by adding water.
- Each sachet is prepared with 500 ml of water.
- Pre-portioned 30 g sachets for individual preparation.
- Designed for use with a reusable refill bottle.
- SLS-free and SLES-free.
- Contains no phosphates, chlorine-based bleaching agents, parabens, added dyes or fragrances.
- The surfactants used are biodegradable.

The absence of added fragrance does not exclude a characteristic odour from the raw materials.

ALLGREEN CONCENTRATED REFILL CLEANING POWDER SET

DEGREASER POWDER SACHET

Product Description

A concentrated powder cleaner prepared with water for removing grease and food-related soils from washable kitchen surfaces.

Applications

For wipeable and washable kitchen surfaces, subject to material compatibility. Follow the surface or equipment manufacturer's cleaning instructions.

Preparation and Use

Prepare the full contents of one 30 g degreaser sachet with 500 ml of water. Once the powder has completely dissolved, apply to a cleaning cloth and wipe the surface. Wipe again with a damp cloth or rinse where required. Rinse food-contact surfaces with potable water after cleaning. Do not apply to hot surfaces.

BATHROOM & WC CLEANER POWDER SACHET

Product Description

A concentrated powder cleaner prepared with water for routine cleaning of washable hard surfaces in bathrooms and toilet areas. Helps remove everyday soils and soap residues.

Applications

For washable surfaces in bathroom and WC areas, subject to material compatibility. Follow the manufacturer's care instructions for delicate surfaces and special finishes.

Preparation and Use

Prepare the full contents of one 30 g bathroom and WC cleaner sachet with 500 ml of water. Once the powder has completely dissolved, apply using a cloth or suitable cleaning tool. After cleaning, rinse with water or wipe with a damp cloth.

Do not mix with bleach, chlorinated products or other cleaning chemicals. No disinfection claim is made for this product.

MULTI-SURFACE CLEANER POWDER SACHET

Product Description

A concentrated powder cleaner prepared with water for everyday cleaning of washable hard surfaces. Helps remove daily soils and surface residues.

Applications

For wipeable tables, cabinet exteriors and other washable hard surfaces, subject to material compatibility.

Preparation and Use

The above details have been compiled to the best of our knowledge on the basis of tests and research work and with regard to the current state of our practical experience. This technical product information is non-binding. No liabilities or guarantees deriving from or in connection with this leaflet can be imputed to us. Statements relating to possible uses of the product do not constitute a guarantee that such uses are appropriate in a particular user's case or that such uses do not infringe the patents or proprietary rights of any third party. ALLGREEN CONCENTRATED REFILL CLEANING POWDER SET

Prepare the full contents of one 30 g multi-surface cleaner sachet with 500 ml of water. Once the powder has completely dissolved, apply to a cleaning cloth and wipe the surface. Wipe again with a clean, damp cloth when necessary.

Do not apply directly to electrical equipment, sockets or water-sensitive components.

GENERAL PREPARATION INSTRUCTIONS

Add 500 ml of potable water at room temperature to a clean, empty refill bottle. Ensure that the bottle has sufficient space for the added powder and mixing.

Add the full contents of one 30 g sachet of the selected product. Do not place the sachet wrapper inside the bottle. Gently agitate the mixture to assist complete dissolution and follow the preparation instructions on the product label.

Label the bottle with the product name and preparation date. Do not apply the powder directly to surfaces.

500 ml refers to the quantity of water to be added, not the exact final volume of the prepared solution.

REFILL BOTTLE USE

Prepare only one product at a time in the bottle. Do not combine different sachet types or prepared cleaning solutions.

Before switching to another product, completely remove the previous contents. Thoroughly wash and rinse the bottle and dispensing head. Relabel the bottle with the newly prepared product's name.

STORAGE AND HANDLING

Store sachets in their original, sealed packaging in a cool, dry place away from direct sunlight. Protect from moisture and open immediately before use.

Keep prepared products in labelled bottles out of reach of children. Do not store in food or beverage containers.

SAFETY INFORMATION

Avoid inhaling powder and avoid contact with eyes. Do not ingest. Do not mix with other cleaning products.

Test on a small, inconspicuous area before first use. Do not use on natural stone, marble, unfinished wood, sensitive metals or special coatings unless compatibility has been confirmed.

Follow the warnings on the label and Safety Data Sheet for each product variant. This Technical Data Sheet does not replace the Safety Data Sheet.
