

ALLGREEN PET STAIN REMOVER

Enzyme-Based Stain and Odour Cleaning Spray

Vegan Formula • SLES/SLS-Free • Phosphate-Free • Chlorine-Free • Dye-Free • Fragrance-Free

PRODUCT DESCRIPTION

ALLGREEN Pet Stain Remover is an enzyme-based cleaning spray developed to help remove pet-related stains and odours from compatible, washable surfaces and textiles. Its enzyme-based cleaning action helps break down organic residues associated with pet accidents. With no added perfume, the product is intended to address odour-causing residues rather than mask them with fragrance. The vegan formula contains no animal-derived ingredients, SLES, SLS, phosphates, chlorine, added dyes or fragrances.

PRODUCT FEATURES

- **Enzyme-Based Cleaning:** Helps break down organic residues associated with pet stains.
- **Stain and Odour Removal:** Developed for cleaning pet-related soiling.
- **Vegan Formula:** Contains no animal-derived ingredients.
- **SLES-Free:** Contains no Sodium Laureth Sulfate.
- **SLS-Free:** Contains no Sodium Lauryl Sulfate.
- **Phosphate-Free and Chlorine-Free.**
- **Dye-Free and Fragrance-Free:** Contains no added dyes, colourants or perfume.
- **Spray Application:** Allows targeted treatment of affected areas.

The absence of added fragrance does not exclude a characteristic raw-material odour.

APPLICATIONS

For compatible, washable surfaces and materials affected by pet-related soiling, including: • Carpets and rugs suitable for wet cleaning. • Washable upholstery and fabric covers. • Washable pet bedding and textile accessories. • Compatible, water-cleanable hard floors. • Suitability must be checked against the material manufacturer's care instructions. Not intended for direct application to animals.

DIRECTIONS FOR USE: Remove solid waste and blot excess liquid with a clean, absorbent cloth. Avoid rubbing the affected area, as this may spread the stain. Test on a small, inconspicuous area before use. Apply to the affected area according to the product label, avoiding excessive wetting of fabrics, padding or flooring. Follow the contact time specified on the product label to allow the enzyme-based cleaning action to work. Blot with a clean cloth, then rinse, wipe or launder as appropriate for the material and label.

ALLGREEN PET STAIN REMOVER

instructions. Allow the treated area to dry completely. Repeat if required. Results may vary with the type and age of the stain, the material and previous cleaning treatments.

Keep pets and children away from the treated area during application and until it is dry. Do not allow animals to lick the product or wet treated surfaces.

SURFACE COMPATIBILITY

Confirm colourfastness and compatibility before application. Do not use on wool, silk, leather, suede, unfinished wood or other sensitive materials unless suitability has been established. Avoid soaking carpet backing, upholstery fillings, floor joints or electrical components. Do not use with steam or hot-water equipment unless specifically authorised in the product instructions.

ENVIRONMENTAL APPROACH

The formula combines enzyme-based cleaning with the exclusion of phosphates, chlorine, dyes and added fragrances. It is developed with an environmentally conscious formulation approach. These characteristics do not, on their own, establish full biodegradability, environmental certification or a quantified reduction in environmental impact.

STORAGE AND HANDLING

Store in the original, tightly closed container in a cool place away from direct sunlight. Protect from freezing and excessive heat.

SAFETY INFORMATION

Keep out of reach of children. Avoid contact with eyes and inhalation of spray mist. Do not ingest. Ensure adequate ventilation during use. Do not apply to animals' skin, fur, paws or bedding while occupied. Do not mix with bleach, disinfectants or other cleaning chemicals. Refer to the product label and Safety Data Sheet for detailed safety precautions and first-aid information.

ADDITIONAL INFORMATION

Intended for cleaning surfaces and textiles. Not a veterinary treatment or an animal grooming product. No disinfection claim is made. This Technical Data Sheet does not replace the Safety Data Sheet.
