

OXYPULV Coffee Machine Cleaner Powder

PRODUCT DESCRIPTION

Powder-form alkaline cleaning agent designed for the regular and intensive cleaning of espresso machines and hot beverage vending machines. The product is odourless and tasteless, rapidly soluble, and contains oxygen-based bleaching agents for effective removal of residues.

INTENDED USE

- Regular and intensive cleaning of espresso machines
- Cleaning of vending machines for hot drinks
- Suitable for all commercially available coffee machines and beverage dispensers

ADVANTAGES

- Reliably removes insoluble coffee oils and tannin residues
- Fast-acting and highly effective cleaning performance
- Rapidly soluble formula ensures quick preparation
- Odourless and tasteless due to oxygen-based bleaching components
- Safe for all standard coffee machines when used as directed

DIRECTIONS FOR USE

- Follow the machine manufacturer's instructions for automated cleaning cycles
- Average dosage: 5–10 g/L per cleaning process
- Use manual dosing aids such as dosing spoons for controlled application
- Do not mix with other cleaning products
- Always rinse thoroughly after cleaning

COMPOSITION

30 % Phosphates Oxygen-based bleaching agents

PACKING OPTIONS

1 L plastic jar,

STORAGE CONDITIONS

- Store only in tightly closed original packaging
- Recommended storage temperature: 0 °C to 25 °C
- Protect from moisture (product may become lumpy, reducing effectiveness)
- Shelf life: **2 years** under recommended storage conditions

For more details regarding safety, handling, and transport, please refer to the Material Safety Data Sheet (MSDS)
