

COFFEE MACHINE & KETTLE CLEANING POWDER

Powder Descaler for Coffee Machines and Kettles

PRODUCT DESCRIPTION

Coffee Machine & Kettle Cleaning Powder is developed to remove limescale and mineral deposits from coffee machines and electric kettles. It helps dissolve deposits associated with water hardness. The powder is dissolved in water before application and used as part of regular appliance maintenance.

PRODUCT FEATURES

- **Descaling Action:** Helps remove water-related limescale and mineral deposits.
- **Powder Format:** Dissolved in water according to the product label.
- **Appliance Maintenance:** Supports routine maintenance of coffee machines and kettles.
- **Versatile Application:** Suitable for compatible coffee machine and kettle models.
- **Convenient Use:** Applied through the appliance's descaling programme or maintenance procedure.

APPLICATIONS

- Electric kettles and water heaters.
- Filter coffee machines.
- Espresso machines.
- Automatic coffee machines.
- Removable appliance components suitable for descaling.

DIRECTIONS FOR USE

Check the appliance manufacturer's descaling instructions before use. Fully dissolve the amount of powder specified on the product label in the stated volume of water at the recommended temperature.

For Kettles and Water Heaters: Add the prepared solution to the reservoir according to the appliance instructions. Do not exceed the maximum fill level. Follow the contact time stated on the product label. Heat or boil the solution only where permitted by both the product and appliance instructions. After treatment, discard the solution and rinse the reservoir thoroughly with clean water. Complete any fresh-water boiling and discard steps specified by the appliance manufacturer.

COFFEE MACHINE & KETTLE CLEANING POWDER

For Coffee Machines: Add the prepared solution to the water tank designated in the appliance manual. Follow the manufacturer's instructions regarding water filters or cartridges. Run the descaling programme or recommended maintenance procedure without coffee. Complete all required fresh-water rinse cycles after treatment. Do not add the product to bean hoppers, ground coffee compartments or milk systems. Do not pour dry powder directly into internal appliance circuits.

MATERIAL COMPATIBILITY

Follow the appliance manufacturer's recommended cleaner type and maintenance instructions. Confirm suitability before use on aluminium, copper, brass, sensitive alloys or special coatings. Avoid contact with marble, natural stone and surrounding acid-sensitive surfaces. Clean up spills promptly and rinse suitable surfaces with water.

STORAGE AND HANDLING

Store in the original, tightly closed packaging in a cool, dry place away from direct sunlight. Protect from moisture and excessive heat. Use a clean, dry measuring utensil. Do not return prepared solution to the product packaging.

SAFETY INFORMATION

Keep out of reach of children. Avoid contact with eyes and skin, and avoid inhaling powder dust. Do not ingest. Do not mix with bleach or other cleaning chemicals. Do not consume the cleaning solution. Complete the appliance's rinsing procedure before preparing beverages. Refer to the product label and Safety Data Sheet for detailed safety precautions and first-aid information.
