

PHOSOX Espresso Machine Cleaner Tablets

PRODUCT DESCRIPTION

Compressed cleaning tablets formulated for the effective maintenance of professional espresso and coffee machines. The product is designed to remove stubborn organic deposits such as coffee oils and tannins, which can negatively affect the taste and quality of beverages. The tablets dissolve rapidly, provide controlled dosing, and contain oxygen-based bleaching agents that ensure thorough cleaning without leaving any odour or aftertaste.

INTENDED USE

- Regular cleaning of espresso machines used in cafés, restaurants, hotels, and professional kitchens
- Intensive cleaning cycles for coffee machines equipped with an automated cleaning program
- Suitable for all standard espresso and coffee machines when used as directed

ADVANTAGES

- Effectively removes insoluble coffee residues, oils, and tannins
- Pre-dosed tablet form ensures simple, safe, and controlled application
- Fast-acting and reliable cleaning performance
- Odourless and tasteless formulation for uncompromised beverage quality
- Contains oxygen-based bleaching agents for enhanced cleaning efficiency

DIRECTIONS FOR USE

- Always follow the cleaning program and instructions provided by the machine manufacturer
- Standard dosage: 1 tablet per cleaning cycle
- Place the tablet in the designated cleaning chamber and run the cleaning program
- Rinse the machine thoroughly with potable water after cleaning
- Do not mix with other cleaning products

COMPOSITION

Sodium carbonate peroxyhydrate, Potassium carbonate, Sodium carbonate, Phosphates

PACKING OPTIONS

- Box with 100 cleaning tablets (2 g each)
- Bulk packaging available upon request
