

LCD, LAPTOP & PC CLEANER – STREAK-FREE FORMULA FOR DELICATE SCREENS & HARDWARE SURFACES

LCD, Laptop & PC Cleaner is a specially formulated liquid cleaner developed for the daily maintenance of delicate screens and electronic hardware surfaces. Its streak-free and antistatic formula safely removes dust, fingerprints, grease, and smudges from sensitive display and device surfaces without scratching or leaving visible residue. The product helps restore screen clarity and brightness while reducing rapid dust re-accumulation. It is suitable for routine cleaning of electronic equipment in homes, offices, schools, and professional environments.

Intended Use

The product is intended for the cleaning of delicate electronic screens and external hardware surfaces requiring residue-free and non-abrasive maintenance. It is designed for regular use on display panels, plastic and glass device surfaces, and peripheral equipment where quick drying, antistatic performance, and safe wiping are required. It is suitable for routine maintenance of powered-off consumer and office electronics.

Application Areas

The product may be used on laptops, desktop computers, monitors, TV screens, projectors, interactive whiteboards, keyboards, mice, printers, and other peripherals. It is also suitable for smartphone and tablet screens, as well as glass and plastic device surfaces. It is intended for external surface cleaning only and must not be used on internal electronic components or connectors.

Product Advantages

The product is safe for delicate electronic surfaces and helps remove fingerprints, dust, grease, and smudges without scratching screens. Its streak-free structure supports clean and clear visual surfaces after wiping. The antistatic effect helps delay dust accumulation and supports longer-lasting cleanliness. Its quick-drying formula improves ease of use and eliminates the need for rinsing. It is suitable for LCD, LED, OLED, TFT, and touchscreen surfaces when used as directed.

Directions for Use

Ensure the device is turned off and cool before cleaning. Do not spray the product directly onto the surface. Spray onto a soft microfiber cloth first, then gently wipe the surface. Follow with a dry cloth if needed. Repeat

the application on heavily soiled areas where necessary. Do not apply the product to internal components, ports, connectors, or exposed electrical parts.

Physical and Chemical Properties

Form: Liquid

Color: Colorless

Odor: Neutral

pH: Neutral, 6–7

Density (20°C): Approx. 1.00 g/ml

Packing

Available in a range of packaging options from 500 ml up to 20 L, depending on customer preference, product type, and filling requirements.

Storage Conditions

Store in the original, tightly closed container in a cool, dry, and well-ventilated place. Recommended storage temperature is 5–30°C. Protect from direct sunlight, frost, and excessive heat.

Safety Information

Use the product only as directed for external electronic surface cleaning. Avoid contact with eyes. Do not spray directly onto energized devices or electrical openings. Keep out of reach of children and unauthorized persons. Do not use on internal components or connectors. Refer to the Safety Data Sheet (SDS) for detailed information on safe handling, storage, first aid measures, and disposal.

General Information

The information provided in this Technical Data Sheet is based on current knowledge and practical experience. It is intended as a general guideline for product application, handling, and storage, and does not constitute a guarantee of performance under all conditions of use.
