

MOLD & MILDEW REMOVER

Mold & Mildew Remover is a specially formulated cleaning product developed for the rapid removal of mold and mildew stains formed in humid environments. It is designed to provide visible cleaning performance within approximately 10 minutes on wall surfaces, tile grout, and other damp areas affected by mold growth. Thanks to its strong chlorine-based cleaning effect, the product also helps eliminate unpleasant odors associated with mildew and moisture accumulation. It is intended for professional cleaning applications where fast and effective mold stain removal is required. The product is not suitable for wood and delicate surfaces.

Intended Use

The product is intended for the cleaning of mold and mildew stains on hard surfaces exposed to moisture and humidity. It is suitable for use in professional cleaning operations where rapid stain removal, odor reduction, and hygiene support are required. It is designed for application on washable mineral and ceramic-based surfaces affected by mold-related contamination.

Application Areas

The product may be used on wall surfaces, tile grout, and damp areas where mold and mildew stains are present. It is suitable for humid interior zones, sanitary areas, and other washable surfaces exposed to persistent moisture. It is intended for professional use only and should not be applied on wood or delicate surfaces.

Product Advantages

The product provides fast and effective removal of mold and mildew stains within a short contact time. Its chlorine-based action helps break down visible contamination and contributes to the elimination of bad odors caused by damp conditions. It is easy to apply by spray method and offers visible cleaning performance on affected surfaces.

Directions for Use

Wear protective gloves, goggles, and a mask before use. Spray the product directly onto the affected surface. Allow it to act for approximately 10 minutes. Rinse with water if possible after application. Ventilate the area thoroughly after use. Do not use on wood or delicate surfaces. Always test on a small inconspicuous area before first use on uncertain materials.

MOLD & MILDEW REMOVER

Physical and Chemical Properties

Appearance: Clear liquid

Color: Yellowish clear liquid

Odor: Chlorine

pH: 11 – 12

Density (20°C): 1.05 ± 0.02 g/ml

Form: Liquid

Application Type: Spray cleaner

Main Performance Feature: Fast mold and mildew stain removal

Packing

Available in a range of packaging options from 500 ml up to 20 L, depending on customer preference, product type, and filling requirements. Custom packaging, private label, private label manufacturing, and contract filling options are available upon request for wholesale and professional distribution needs.

Storage Conditions

Store in the original, tightly closed container in a cool, dry, and well-ventilated place. Protect from direct sunlight, frost, and excessive heat. Do not stack more than 5 cartons or 3 drums.

Safety Information

This product is intended for professional use only. Wear protective gloves, goggles, and a mask during use. Avoid contact with skin and eyes. Use only in well-ventilated areas. Do not mix with other chemicals unless compatibility has been confirmed. Keep out of reach of unauthorized persons and children. Refer to the Safety Data Sheet (SDS) for detailed information on hazards, first aid, handling, storage, and disposal.

General Information

The information provided in this Technical Data Sheet is based on current knowledge and practical experience. It is intended as a general guideline for product application, handling, and storage, and does not constitute a guarantee of performance under all conditions of use.
