

BIODEGRADABLE DEGREASER – POWERFUL– VEGAN

Product Description

Biodegradable Degreaser is a powerful plant-based cleaning product developed for the effective removal of grease, oil, grime, and stubborn buildup from kitchen and industrial surfaces. It is designed to deliver strong cleaning performance on heavily used washable hard surfaces while maintaining a gentler product profile than conventional harsh degreasers. The formula helps loosen oily residues quickly, making routine and heavy-duty cleaning faster and more practical. It leaves no visible residue when used as directed and rinses easily after application.

Intended Use

The product is intended for routine and intensive degreasing of washable hard surfaces exposed to cooking oils, greasy dirt, and persistent surface buildup. It is suitable for domestic kitchens as well as professional food preparation and catering environments. It is designed for users seeking a vegan and biodegradable degreasing cleaner with plant-based cleaning performance.

Application Areas

The product may be used on stovetops, counters, oven surfaces, extractor filters, tiles, hoods, stainless steel, ceramic surfaces, glass stovetops, and other washable hard surfaces. It is suitable for home kitchens, restaurants, cafés, catering facilities, food preparation areas, and similar professional environments. It may be used wherever effective grease and grime removal is required on compatible surfaces.

Product Advantages

The product provides strong plant-based degreasing action against grease, oil, and stubborn kitchen residues. It helps loosen surface buildup quickly, supporting faster and easier cleaning in both domestic and professional environments. The formula is biodegradable and vegan and does not contain SLS, SLES, ammonia, chlorine, phosphates, parabens, or synthetic dyes. It rinses easily, leaves no unwanted film when used as directed, and helps maintain a visibly clean and refreshed surface appearance. With regular use, it may also help reduce long-term greasy buildup on frequently used surfaces.

Directions for Use

Apply the product directly onto the surface or onto a suitable cloth or sponge depending on the level of soiling and the application area. Allow a short contact time so the product can loosen grease and oily residues. Wipe or scrub as needed, then rinse thoroughly with clean water. Repeat the application where necessary for heavier contamination. Always test first on a small inconspicuous area before full application on delicate or specialty finishes.

BIODEGRADABLE DEGREASER – POWERFUL– VEGAN

Physical and Chemical Properties

Form: Liquid

Odor: Mild natural fragrance

Application Type: Degreasing cleaner for washable hard surfaces

Residue After Use: None when used as directed

Rinsing: Easy rinsing

Biodegradability: Biodegradable

Formula Type: Plant-based, vegan

Packing

Available in flexible packaging options including 1 L, 2 L, 3 L, and 5 L bottles for consumer use, as well as 10 L, 20 L, and bulk supply options for larger-scale applications. Custom packaging, private label, private label manufacturing, contract filling, fragrance customization, trigger sprayer selection, bottle color options, and full label design support are available upon request for wholesale and professional distribution needs. Concentrated versions may also be supplied to reduce storage and shipping costs.

Storage Conditions

Store in the original, tightly closed container in a cool, dry, and well-ventilated place. Protect from direct sunlight, frost, and excessive heat. Keep the container securely closed when not in use.

Safety Information

Use the product only as directed. Avoid contact with eyes. Keep out of reach of children and unauthorized persons. Do not mix with other cleaning chemicals unless compatibility has been confirmed. Refer to the Safety Data Sheet (SDS) for detailed information on safe handling, storage, first aid measures, and disposal.

General Information

The information provided in this Technical Data Sheet is based on current knowledge and practical experience. It is intended as a general guideline for product application, handling, and storage, and does not constitute a guarantee of performance under all conditions of use.
