

BIODEGRADABLE FRUIT & VEGETABLE WASH – VEGAN

Product Description

Natural Biodegradable Fruit & Vegetable Wash is a gentle, plant-based cleaning product developed for the washing of fresh produce in household and professional kitchen environments. It is designed to help remove surface dirt, oils, waxes, dust, and everyday residues that may remain on fruits and vegetables after handling, transport, and storage. The formula rinses easily and leaves no visible residue when used as directed, helping produce feel cleaner and fresher without altering its natural taste, aroma, or texture. It is biodegradable and formulated without chlorine, phosphates, dyes, synthetic fragrances, SLS, or SLES.

Intended Use

The product is intended for washing fresh fruits and vegetables before consumption or food preparation. It is suitable for routine use in homes, kitchens, cafés, restaurants, and food-service environments where gentle produce cleaning is required. It is designed for users seeking a plant-based and biodegradable produce wash with easy rinsing performance and a mild cleaning profile.

Application Areas

The product may be used on leafy greens, apples, grapes, berries, tomatoes, cucumbers, herbs, root vegetables, and other fresh fruits and vegetables. It is suitable for household kitchens, cafés, restaurants, food-service areas, and other produce preparation environments. The product may be applied directly to produce or diluted in water depending on the preferred cleaning method.

Product Advantages

The product helps remove oils, waxes, dust, and surface residues from fresh produce while maintaining a gentle cleaning profile. Its plant-based and biodegradable formulation supports daily use in family kitchens and food preparation areas. The formula is free from chlorine, phosphates, parabens, synthetic fragrances, petroleum derivatives, artificial colors, SLS, and SLES. It rinses cleanly with water and does not leave visible residue when used as directed. The product is suitable for regular use on a wide variety of fruits and vegetables and supports a cleaner and fresher produce preparation routine.

Directions for Use

Apply the product directly onto the surface of the produce or dilute it in a bowl of clean water depending on the amount and type of produce being washed. Gently rub or agitate the produce to help loosen surface residues. Rinse thoroughly with clean potable water after application. Use regularly as part of normal fruit and vegetable washing before preparation or consumption.
