

BATHROOM CLEANER & LIMESCALE REMOVER

Powerful Bathroom Cleaner & Limescale Remover is an effective spray cleaner developed to remove limescale, soap residue, water stains, and bathroom dirt from washable hard surfaces. It is designed to restore cleanliness and shine to surfaces affected by routine mineral deposits and hygiene-related buildup. The product acts quickly on bathroom soils and helps leave surfaces clean, bright, and free from visible streaks or dullness. Its menthol-containing fragrance system leaves a fresh and invigorating atmosphere after use, making it suitable for both domestic and professional cleaning applications.

Intended Use

The product is intended for the cleaning of bathroom surfaces exposed to limescale, soap scum, body oils, and water-related stains. It is suitable for routine and intensive bathroom cleaning where fast action, visible cleanliness, and a fresh after-scent are required. It is designed for spray application on hard washable surfaces in household and professional environments.

Application Areas

The product may be used on shower cabins, sinks, tiles, grout lines, bathtubs, ceramic coverings, faucet surfaces, and bathroom fixtures. It is suitable for hard washable bathroom surfaces requiring effective limescale removal and deep cleaning performance. It may be used in homes, offices, hotels, clinics, and other professional cleaning environments.

Product Advantages

The product quickly dissolves heavy limescale and water stains on bathroom surfaces. It also helps remove soap scum, body oils, and stubborn bathroom grime, supporting deep and effective cleaning. Its spray form allows direct and even application to the desired area, improving ease of use and reducing product waste. After cleaning, it helps leave surfaces bright, clean, and free from visible streaks or residue. The menthol-based fresh scent supports a clean and refreshing bathroom atmosphere after application.

Directions for Use

Spray the product directly onto the dirty or stained surface. Allow it to act for 1–2 minutes depending on the level of soiling. Wipe the surface with a damp sponge or microfiber cloth, then rinse thoroughly with water. For
